

Niwber Cavalcante

Gerente Comercial

“ We are experts in success for our customers, we understand their needs and we always look for attending their necessities with commitment and dedication. ”

Niwber Cavalcante has a degree in Administration. He started his professional career in the automotive area, working as a Production Supervisor and in the Commercial area. In the Engineering area, he worked in construction planning and equipment maintenance in large projects of steel, mining, and flat glass industries.

He joined Cabelauto in 2014, in New Business Development area, and currently he is a Commercial Manager, responsible for Post-sales, Marketing and Business Intelligence, working in data analysis and organization, market research and stock implementation that result in better investments and in

constant search of good results.

Since he is part of Cabelauto's team, he has experienced several economic scenarios in Brazil and in the world, those experiences have made him adapt to new realities, innovating and reinventing himself in the market that, according to his words, is looking for more than a product, which means, the search of quality, on-time delivery and reliability.
