

Leandro Moraes
Process Supervisor

Individual commitment to a joint effort, this is what makes a team work, believe that we can always improve through methodology, innovation and creativity in order to meet all aspects required by the cliente. In this way Cabelauto stands out as a great power in the market.

Leandro Moraes graduated from the Universidade de Mogi das Cruzes (UMC) in Electrical Engineering. With more than 20 years of experience in the wire and cable industry, acting in the technological leadership of several companies such as Induscabos, Cordeiro, General Cable do Brasil, Cablena and others.

Present at Cabelauto since July 2022, he is in charge of the Process area, working on the challenge of continuous improvement of industrial processes, equipment and methods, in search of increased productivity and cost reduction, but always with quality and safety.
